

OUR PLEDGE OF SUPPORT & COMMITMENT

Service:

We will provide you with the best service available in the industry. Specializing in same day response to your needs. We will always provide the best and most complete service package available from any supplier.

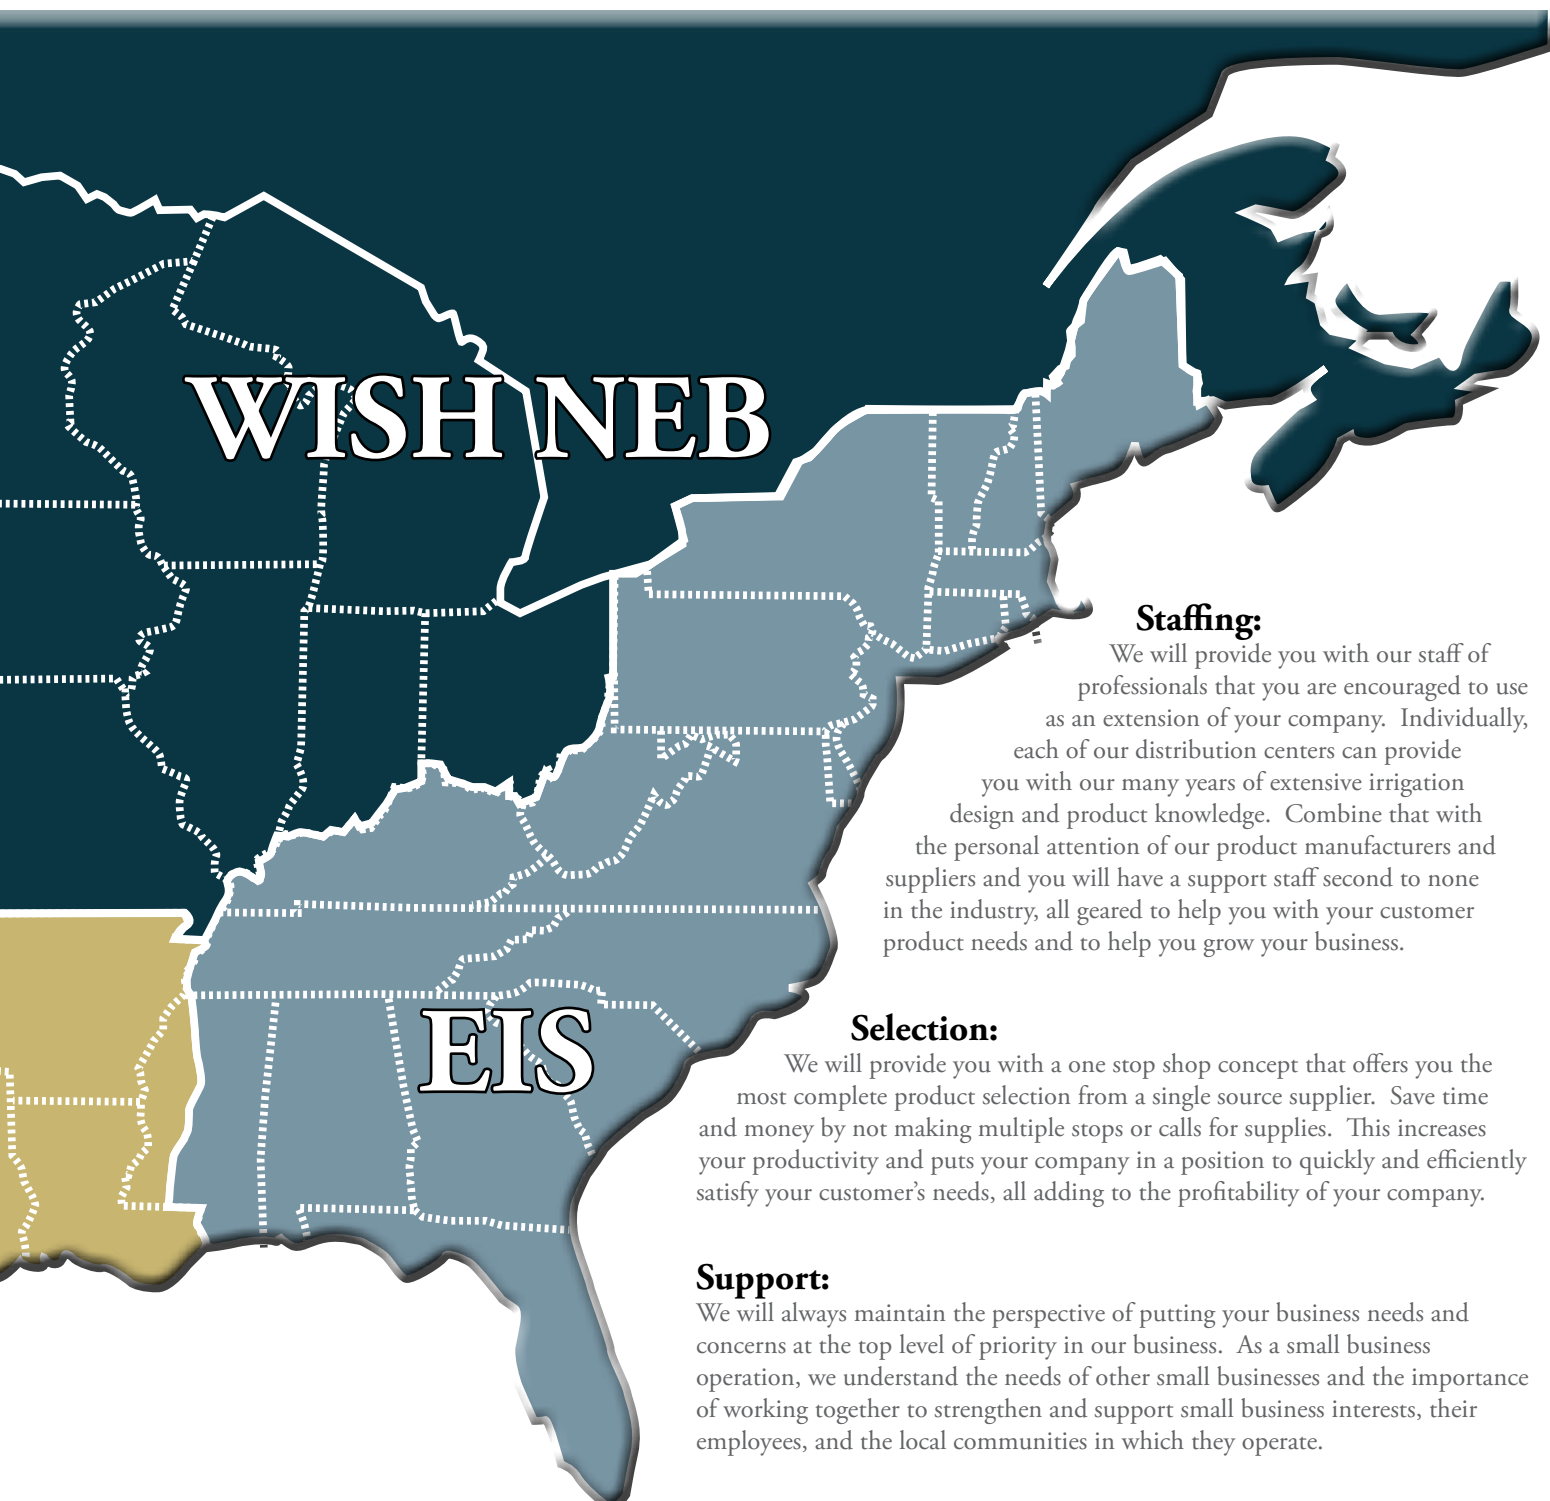

Quality:

We will always strive to provide you with the highest quality name brand products in the industry, backed with the manufacturer's guarantee and warranty.

Pricing:

We will continually work to provide you with the lowest and most competitive prices in the industry. In many cases, we will be able to extend "factory direct pricing," the same that you would be able to purchase at direct from the manufacturer. In every case, we will provide fair and competitive prices for all of your irrigation needs.

WISH NEB

EIS

Staffing:

We will provide you with our staff of professionals that you are encouraged to use as an extension of your company. Individually, each of our distribution centers can provide you with our many years of extensive irrigation design and product knowledge. Combine that with the personal attention of our product manufacturers and suppliers and you will have a support staff second to none in the industry, all geared to help you with your customer product needs and to help you grow your business.

Selection:

We will provide you with a one stop shop concept that offers you the most complete product selection from a single source supplier. Save time and money by not making multiple stops or calls for supplies. This increases your productivity and puts your company in a position to quickly and efficiently satisfy your customer's needs, all adding to the profitability of your company.

Support:

We will always maintain the perspective of putting your business needs and concerns at the top level of priority in our business. As a small business operation, we understand the needs of other small businesses and the importance of working together to strengthen and support small business interests, their employees, and the local communities in which they operate.

Commitment:

We are committed to helping you build and grow your business. As you purchase products from us, we will return all profits back into the business, keeping them working for you. Whether it be through maintaining adequate stock levels which make it possible to address your customer's needs, selecting new products for you to offer your customers and grow from, or negotiating better prices from manufacturers to lower your cost, we are committed to you.
